These were simpler times. Table of contents: • On divergent series: Ascendant • What happened to Allegiant, Part 2 • All cancelled projects • Actors who abandoned Allegiant, Part 2 • Where are the divergent actors now? About 'Divergent Series: Ascendant': In April 2014, Summit announced that the final book of Veronica Roth's Divergent series would be divided into two films. Of course,, sighed the fandom, recalling the divisions of Harry Potter and the Deathly Hallows, The Twilight Saga: Breaking Dawn and The Hunger Games: Mockingjay. The film, based on the second half of Allegiant, was titled The Divergent Series: Ascendant and was originally scheduled to be released on March 24, 2017. It was later pushed to June 2017 to accommodate power rangers. But after The Divergent Series: Allegiant (also known as Allegiant, Part 1) fell at the box office, the studio canceled the finale. How did we get here? What happened to 'The Divergent Series: Ascendant' known as 'Allegiant, Part 2' For studios, squeezing two films from a single book is easy —as long as it's done correctly. The large wigs that feature Harry Potter, Twilight and The Hunger Games split each of the series' final books in half, and then filmed both back-to-back parts in an oversized production. It was a way to streamline productions and, more importantly, save money. By shooting two movies at the same time, you reduce the time it takes to start separate sessions (bringing together casts, production teams, locations, etc.). For Divergent, it was here that the mistakes began to occur: For a reason we don't know yet, Summit decided he would film The Divergent Series: Allegiant and The Divergent Series: Ascendant separately. Suddenly, it didn't seem to split the fourth book in Allegiant, Part 1 and Allegiant, part 2 was a very economical move. The decision to shoot separate productions may have had a bit to do with Lionsgate trying to rush director Robert Schwentke. He shot Insurgent and Allegiant, but left before Ascendant due to time constraints, meaning they needed someone new to come on board for the final film. As Schwentke was not competing for a third film, they could not shoot Allegiant and Ascendant simultaneously. Making things worse, the box office profits of the Divergent series had a steady slide on its execution. Internally, Divergent made \$150 million, Insurgent made \$130 million, and Allegiant made \$66 million. At the same time, the quality and loyalty to the source material The films seemed more blabby and the plots became more confusing, diverging from Veronica Roth's original vision. In this trajectory, The Divergent Series: Ascendant would have a shamefully low amount. In July 2016, just a few weeks after Allegiant, Part 1 left theaters, Summit/Lionsgate decided to remove Allegiant, Part 2 of its theatrical programming and move the project to the studio's TV department. In August 2017, we learned that there were plans to shoot the finale on a smaller television budget and use it to introduce a new spinoff series into a TV network. These ideas have never passed the brainstorming stage. It was embarrassing for the studio for several reasons: its previous commitment to a two-part theatrical ending, the inability to move on with just one more film, and the fact that diverting from the source material only lost fans and hurt box office revenue. All projects cancelled Update (December 2018): So what's new in The Divergent Series: Ascendant? It shouldn't come as a surprise, as there have been no updates in the past two years, but Lionsgate has confirmed to BuzzFeed News that Allegiant, Part 2, is no longer in development as a TV show or a movie. He's as dead as Tris. Making things more complicated for the studio to continue with a fourth part, the cast of the Divergent Series had contracts stipulating that all divergent films should be released in theaters. Since launching The Divergent Series: Ascendant on TV would have the deals violated, Lionsgate has had to return to the negotiating table. But the actors, feeling a bombshell, decided to stay away. Actors who gave up on 'Allegiant, Part 2' Here are the actors who parted ways with The Divergent Series: Ascendant after the studio said they would shoot the film for television. Shailene Woodley (February 2017): No, I'm not going to be on the tv show. Theo James (December 2016): I think it's a shame we can't finish the story, but I think it's evolving into a place where the actors who have been in the three films probably won't be in anything that it evolves in the future. Miles Teller (August 2016) Things change whenever they're messing with something that wasn't the original intent. We all signed for it in the hope that it would be released in theaters, and we all had every intention of ending [the franchise]. For her part, Veronica Roth said the situation is out of her hands, and even she doesn't know what's coming for the adaptation of her book series: I wasn't part of the decision to split the last book into two parts, although I was curious to see how the film crew would perform it. And now the situation is somewhat uncertain as Lionsgate seeks another path to the latter part of the series. I, like you, am waiting to see what happens, she said. Related: It's perfectly good for Shailene Woodley to give up the latest Divergent film: in fact, she is smarter to him Adding to the drama, the final book of Roth's series was not well received by fans. Tris's death was particularly disturbing to longtime readers. Although the conversation tends to be cheap, many fans have sworn that boycott the final film in retaliation for what Roth did to the main character. Looking at the box office numbers, it seems that the turnaround and the general reaction to Allegiant's book have hurt the film adaptation, too. In a conference call with fansites in September 2016 (Hippable was not on the call), the studio's publicists told longtime fan owners that they were actively looking for networks [to buy the rights], and once decided, that the network will choose whether they want to make a TV movie or TV series to finish the series. Given Lionsgate's aforementioned observations in December 2018, it appears that the conclusion of Roth's Divergent Series will never see the light of day. Allegiant, Part 2 and The Divergent Series: Ascendant will never be done. It's a bummer for long-time fans, but it comes down to bad studio decisions. Where are the divergent actors now? Shailene Woodley has been pretty busy since allegiant, part 2 has been cancelled! Most notably, she starred in Big Little Lies, which was widely popular on HBO. She also continues to act in films such as Endings, Beginnings, which will open in 2020, and Prisoner 760, which is due out in 2021. Theo James has also not slowed down, he continues to act in both films and television. Most notably he starred in Underworld: Blood Wars in 2016, Sanditon in 2019 and Castlevania from 2018 to 2020. Ansel Elgort, who has worked alongside Shailene Woodley in other films, starred in the film Baby Driver in 2017. He also starred in The Goldfinch's 2019 West Side Story, which premieres in 2020, and a new TV series Tokyo Vice that has no release date yet. Miles Teller recently starred in the biopic Thank You for Your Service and the TV miniseries Too Old to Die Young. Fans can also see it in Top Gun: Maverick, which will be out in 2020. 2020.
